**REQUEST FOR CERTIFICATE OF CORRECTION OF PATENT
FOR APPLICANT'S MISTAKES (37 C.F.R. § 1.323)**

Applicant hereby requests the issuance of a Certificate of Correction for the above-identified patent. Submitted herewith is one page of Form PTO/SB/44.

REMARKS

The proposed corrections do not constitute new matter, require reexamination or materially affect the scope or meaning of the patent.

1. The Certificate of Correction corrects a typographical error made when the application was initially filed; namely, priority was claimed to application No. 10/167,929 instead of application No. 10/167,925. The application as filed contained the following priority claim: “This application is a continued-in-part application of copending U.S. Application Number 10/167,929, which was filed on June 11, 2002, which is a continuation application of U.S. Application Number 09/610,904 which was filed July 6, 2000 and issued as U.S. Patent 6,438,638 on August 20, 2002”. It is evident that Applicant intended to claim priority to 10/167,925 instead of 10/167,929 because: 1) 10/167,925 was filed on June 11, 2002, which is the filing date specified by Applicant, whereas 10/167,929 was filed on June 12, 2002; and 2) 10/167,925 is a continuation of application No. 09/610,904, which is the priority claim specified by Applicant, whereas 10/167,929 is not in any way related to 09/610,904.

2. The Certificate of Correction clarifies the relationship between the present application and its parent applications. Applicant intended to claim that the present application is a continuation-in-part of application Nos. 10/167,925, 10/039,685 and 10/002,567, which becomes apparent when brackets are added to clarify Applicant’s priority claim:

--This application is a continued-in-part application of copending U.S. Application Number 10/167,925, which was filed on June 11, 2002, [which is a continuation application of U.S. Application Number 09/610,904 which was filed July 6, 2000 and issued as U.S. Patent 6,438,638 on August 20, 2002, and is titled “Flashtoaster for reading several types of flash Memory Cards with or without a PC”] and copending U.S. Application Number 10/039,685 which was filed October 29, 2001 and is titled, “Flashtoaster for reading several types of flash Memory Cards with or without a PC” and copending U.S. Application Number 10/002,567 which was filed November 1, 2001 and is titled, “Active Adapter Chip for Use in a Flash Card Reader”, the priority of which is hereby claimed, and the entirety of which are incorporated herein by this reference, and all of which are assigned to the assignee of the present invention.--

It is evident from the above that the term “continuation” applies only to the relationship between 10/167,925 and 09/610,904, and that the term “continuation-in-part” applies to the relationship between the present application and its three parent applications.

The Commissioner is hereby authorized to charge \$100 under 37 C.F.R. § 1.20(a) and any additional fees which may be required, now or in the future, or credit any overpayment to Account No. 50-2638.

Respectfully submitted,

Date: August 7, 2007
